

Compatibility: OMS / LoRawan / Sigfox

Water level detector

Ideal tool for hard-to-reach places and highly reliable.

Very small detector 2cmx1.5cmx0.5cm, which allows it to be positioned from 1mm from the ground or, depending on the need, several centimeters or meters away.

This product can be associated with a network through our radio hubs. It can transmit its data in a completely autonomous way. Our programming ensures that you receive the alert message in real time.

Technical specifications

- **Temperature range:** between -20°C to +60°C
- **Operation:** all fluids
- **Composition:** Fully static stainless steel electrode
- **Transmission:** wireless

Communications

- **Technology:** OMS / LoRawan / Sigfox

The advantages of the product

- Ideal tool for hard-to-reach places
- High reliability
- Compatible with webView
