

Compatibility: Sigfox - OMS
Reference: HOE-006-003-SIG-BUT

Sigfox SmartMeter Emergency button

It allows you to call the emergency services in the event of an accident or the company's SST.

As soon as the button is triggered, a signal is sent to all security actors, so the emergency services know who is intervening, who is on site, actions are faster to coordinate.

Technical specifications

- **Frequency:** 868Mhz
- **Encryption:** AES 128 or 256 or none as per customer request

Communications

- **Technology:** OMS / Sigfox

The advantages of the product

- Allows you to act quickly, avoids panic because as soon as the button is pressed, emergency dispatches are automated.
- The first responders know immediately where to intervene and coordination is perfectly organised.
- Between triggering and alerts less than 45 seconds elapse.
- Ideal tool for companies, public places or temporary events.
